ABOUT ME

I seek challenging opportunity where i can fully use my skills for the success of the organization and an environment which encourage me to succeeded and improve my knowledge helps me motivating working environment

TECHNICAL SKILLS

- language: python
- Data Base : sql
- ML libraries : scikit-learn , pandas , numpy
- Tools : jupyter note book, vs code , idle
- Domain : Machine learning , Data analytics
- Software documents : MS word , MS Excel

EDUCATION

B.Tech | ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

2024 - 2028

Velammal institute of technology

CGPA : 8.0/10.0

PROJECT EXPERIENCE

Hand Gesture Recognition for Multi-CultureSign Language Using Graph and General Deep Learning Network

| team work

- Objective: Develop and train models for gesture recognition.
- Description:
- The core of the system integrates multiple deep learning architectures:
- Graph Neural Networks (GNNs) to process spatial relationships in graph-based gesture representations.
- Sequence Models (e.g., LSTMs, GRUs, or Transformers) to gestures across multiple languages.
- Convolutional Neural Networks (CNNs) to extract contextual features from video frames.
- These models are trained using annotated data to recognize gestures across multiple languages.
- Outcome: Trained models capable of recognizing gestures with high accuracy.

Student Performance // education dashboard | individual

- Designed a MySQL relational database schema to store student records, grades, and attendance efficiently.

ACHIEVEMENT

- Certified Participant – AI-Based Workshop | Gained hands-on exposure to Artificial Intelligence, Machine Learning, and AI applications.
- Certifications:
 - Software Engineering – Infosys Springboard
 - Ethical AI – Infosys Springboard
 - Artificial Intelligence Primer – Infosys Springboard
- Java Programming Workshop – Certificate of Participation
